

Annual Primary School Census - 2015

Monitoring and Evaluation Division
Directorate of Primary Education
Ministry of Primary and Mass Education
December 2015

Annual Primary School Census 2015

Guided by

Md. Alamgir

Director General, Directorate of Primary Education (DPE)

Supervised by

Md. Saber Hossain

Director, Monitoring & Evaluation Division, DPE

Planning & Editing

- a. Ms. Kawsar Sabina, Deputy Director (M&E), DPE
- b. Md. Shafiqul Islam, Asst. Director (M&E), DPE
- c. Md. Muktar Hossain, Statistical Officer, M&E Division, DPE
- d. Yasmin Akter, Statistical Officer, M&E Division, DPE
- e. Md. Mehdi Hasan, Statistical Officer, M&E Division, DPE

Data cleaning, Analysis and Report writing

- a. Md. Ohidul Alam Khan, Consultant, M&E Division, DPE
- b. Ismail Hossain, Statistical Officer, M&E Division, DPE
- c. Md. Sajidul Islam, Sr. Education Specialist, M&E Consultant, DPE

Advised by

Technical Committee of Primary Education Statistics, DPE

Data Cleaning and Database Management: IMD, DPE

- a. Anuj Kumar Roy, System Analyst, IMD, DPE
- b. Md. Osman Goni, Programmer, IMD, DPE

Table of Content

ANNUAL PRIMARY SCHOOL CENSUS	III
TABLE OF CONTENT.....	IV
LIST OF TABLES	VI
LIST OF FIGURES.....	X
GLOSSARY	XI
ACRONYMS.....	XIX
EXECUTIVE SUMMARY	XXI
1. CHAPTER 1: INTRODUCTION	2
1.1 BACKGROUND.....	2
1.2 OBJECTIVE OF THE ANNUAL PRIMARY SCHOOL CENSUS 2015.....	4
1.3 SCOPE OF THE ANNUAL PRIMARY SCHOOL CENSUS 2015.....	4
1.4 METHODOLOGY	4
1.5 PREPARATION OF THE QUESTIONNAIRE.....	4
1.6 DATA COLLECTION AND DATA ENTRY	5
1.7 DATA CLEANING, PROCESSING AND ANALYSIS	5
1.8 DATA VALIDATION	5
1.9 POPULATION COHORT (6-10 YEARS).....	5
1.10 APPROVAL OF THE APSC	6
1.11 ORGANIZATION OF THE REPORT	7
1.12 LIMITATIONS OF THE ANNUAL PRIMARY SCHOOL CENSUS 2015.....	7
1.13 FUTURE PLAN OF APSC	8
1.14 PRIMARY EDUCATION BY TYPE OF INSTITUTIONS.....	8
2. CHAPTER 2: PRE-PRIMARY EDUCATION	14
2.1 INTRODUCTION	14
2.2 INSTITUTIONS PROVIDING PPE	20
2.3 ENROLMENT OF SPECIAL NEED CHILDRENINPPE	22
3. CHAPTER 3: ACCESS AND PARTICIPATION IN PRIMARY EDUCATION	24
3.1 INTRODUCTION	24
3.2 GRADE WISEENROLMENT IN 2015.....	31
3.3 ENROLMENT OF SPECIAL NEED CHILDREN	59
3.4 GENDER PARITY IN ENROLMENT.....	62
3.5 SINGLE SHIFT SCHOOL	63
4. CHAPTER 4: INTERNAL EFFICIENCY	67
4.1 INTRODUCTION	67
4.2 REPEATERS	67
4.3 GRADE WISE AND CYCLE DROPOUT.....	78
4.4 SURVIVAL RATE.....	82
4.5 COEFFICIENT OF EFFICIENCY	82
4.6 YEARS INPUT PER GRADUATE.....	83
4.7 AVERAGE STUDENT ABSENTEEISM	84
4.8 PRIMARY EDUCATION COMPLETION EXAMINATION RESULTS	85

5. CHAPTER 5 :TEACHERS INFORMATION	98
5.1 INTRODUCTION	98
5.2 STUDENT -TEACHER RATIO (STR).....	106
5.3 EDUCATIONAL QUALIFICATION OF TEACHERS.....	108
5.4 PROFESSIONAL QUALIFICATION OF TEACHERS (C-IN-ED).....	109
6. CHAPTER 6: ANNEXES.....	115
ANNEX 1. LIST OF KPIs	115
ANNEX 2: LIST OF NON-KPIs	116
ANNEX 3: LIST OF DLIs	116
ANNEX 4: LIST OF PSQLS	117
PRIMARY SCHOOL QUALITY LEVEL INDICATORS (PSQLS): PSQLS ARE USES AS A PROXY TO UNDERSTAND WHETHER MINIMUM STANDARDS BEING MET ACROSS THE EDUCATION SYSTEM, ESPECIALLY AT THE SCHOOL LEVEL. PROGRESS AGAINST THE PSQLS INFORMS THE DISTRIBUTION OF FIXED TRANCHE FUNDING FROM THE DP'S. THE 14 PSQLS ARE AS FOLLOWS:.....	117
ANNEX 5: LIST OF SUB-COMPONENT INDICATORS	118
ANNEX 6: YEAR WISE COMPARISON OF SOME KEY INDICATORS 2005-2015	122
ANNEX 7: UNESCO RECONSTRUCTION COHORT MODEL.....	123
ANNEX 8. POPULATION OF 6 YEARS & 6-10 YEARS BY DISTRICT 2015	124
NOTE: DPE HAS BEEN USING BACKWARD CALCULATION APPROACH I.E. EXCLUDING 10 YEARS AND INCLUDING 5 YEARS FOR COMPUTING 6-10 YEARS AGES POPULATION IN EACH YEARSINCE 2011 CONSIDERING THE SINGLE AGE POPULATIONOF BBS 2011 POPULATION CENSUS DATA AS A BASE POPULATION (FROM THE 2011 POPULATION CENSUS 6-10 YEARS USED IN 2011, 5-9 YEARS IN 2012AND ACCORDINGLY BACKWARDS CALCULATION UP TO 2015).	125
ANNEX 9. DATA CLEANING AS PER MANUAL	126
ANNEX 10. INTERNAL VALIDATION SYSTEM IN THE EXISTING APSC SOFTWARE.....	129
ANNEX 11. APSC QUESTIONNAIRE 2015	131
ANNEX 12: CONTACT HOURS IN DPE MANAGED PRIMARY SCHOOLS	141

Glossary

1. Access in primary education

Definition: Access means a channel, a passage, an entrance or a doorway to primary education. It has a two-way role:

- a) A physical approach;
- b) Utilization of existing facilities: It is not only essential to provide education facilities but it is equally important that these facilities to be utilized.

Purpose: The purpose is to provide access for all children to primary education as per the national policy and where it would not be possible to provide, alternative schooling should be introduced for their teaching learning at comparable level.

2. Class size

Definition: The average number of students enrolled per class.

Purpose: The purpose is to measure the average number of children taught together at one time in a room. The results can compare with established country's national norms.

Calculation method: Divide the total number of students enrolled by the total number of classes.

3. Coefficient of Efficiency

Definition: The ideal (optimal) number of pupil years required (i.e. in the absence of repetition and dropout) to produce a number of graduates from a given schools cohort for primary education expressed as a percentage of the actual number of pupil years spent to produce the same number of graduates. DPE uses UNESCO reconstruction cohort model for calculating Coefficient of efficiency.

Purpose: This is an indicator of the internal efficiency of an educational system. It summarises the consequences of repetition and dropout on the efficiency of the educational process in producing graduates.

Calculation method: Divide the ideal number of pupil years required to produce a number of graduates from a given schools cohort for the specified level of education by the actual number of pupil years spent to produce the same number of graduates, then multiply the result by 100. The coefficient of efficiency calculated based on the reconstructed cohort method, which uses data on enrolment and repeaters for two consecutive years.

4. Cohort Completion Rate for Primary Education (CCR)

Definition: Percentage of a cohort of pupils enrolled in the first grade of primary education in a given schools year expected to complete primary education. The CCR is the product of the probability of reaching the last grade (survival rate) and the probability of graduating from the last grade. DPE uses UNESCO reconstruction cohort model for calculating completion rate.

Purpose: To assess the likelihood that pupils of the same cohort, including repeaters, complete primary education.

5. Dropout Rate (DR) by grade

Definition: Proportion of pupils from a cohort enrolled in a given grade in a given schools year no longer enrolled in the following schools year.

Purpose: The purpose is to measure the phenomenon of pupils from a cohort leaving schools without completion, and its effect on the internal efficiency of educational systems. In addition, it is one of the key indicators for analyzing and projecting pupil flows from grade to grade within the educational cycle. DPE uses UNESCO reconstruction cohort model for calculating Dropout rate.

Calculation method: Dropout rate by grade is calculated by subtracting the sum of promotion rate and repetition rate from 100 in the given schools year. The cumulative dropout rate of primary education has calculated by subtracting the survival rate from 100 at a given grade (see survival rate).

$$\text{Formula} = \frac{\text{No. of pupils dropping out from grade } g \text{ in year } t}{\text{Total number of pupils in grade } g \text{ in year } t} \times 100$$

6. Ebtedayee Madrashas

Definition: This is the level of Madrashah system offering education equivalent to the primary level of general education. It offers both religious and general education instruction to the Muslim students.

7. Equity

Definition: Equity means equitable access to and participation in all management and program functions regardless of special characteristics including but not limited to gender, race, colour, national origin, disability and age.

8. Gender Parity Index (GPI)

Definition:GPI is the ratio of female to male values of a given indicator.

Purpose:The GPI measures progress towards gender parity in education participation and/or learning opportunities available for female in relation to those available to male. It also reflects the level of women's empowerment in society.

Calculation Method:Divide the female value of a given indicator by that of the male

$$\text{Formula} = \frac{\text{Ratio of Female in GER/NER in year } t}{\text{Ratio of Male in GER/NER in year } t}$$

9. Grade Transition

Definition: In education, grade transition is the number of a cohort of pupils who enters first grade of primary education and who experience promotion, dropout and repetition from grade to grade, i.e., how many of them roll over to the next grade, next year and so on, and thus complete a particular level or stage of education.

10. Gross Enrolment Rate (GER) for a given cycle of education

Definition: The gross enrolment rate is the total number of pupils in a given educational cycle regardless of age expressed as a percentage of ‘the population of related school age’ (6-10 years in Bangladesh).

Purpose: The purpose is to show the general level of participation in a given level of education. It indicates the capacity of the education system to enroll students of a particular age group. It can also be a complementary indicator to NER by indicating the extent of over-aged and under-aged enrolment.

Calculation method: Divide the number of pupils (or students) enrolled in a given level of education regardless of age by the population of the age group, which officially corresponds to the given level of education, and then multiplies the result by 100.

$$\text{Formula} = \frac{\text{No. of all pupils enrolled in the primary cycle regardless of age}}{\text{Population of related school age (6-10 years in Bangladesh)}} \times 100$$

11. Gross Intake Rate in the First Grade of Primary Cycle (Gross Admission Rate)

Definition: Total number of new entrants in the first grade of primary education, regardless of age, expressed as a percentage of the population at the official primary school-entrance age (6 years in Bangladesh). In other words, this rate identifies the number of children newly admitted to the first year of school, regardless of age as a percentage of children who are entitled to admission.

Purpose: Purpose is to indicate the general level of access to primary education. It also indicates the capacity of the education system to provide access to grade 1 for the official school-entrance age population.

Calculation method: Divide the number of new entrants in grade 1, irrespective of age, by the population of official school-entrance age, and multiply the result by 100.

$$\text{Formula} = \frac{\text{No. of pupils in Grade 1 regardless of age}}{\text{Population of legal admission age (6years in Bangladesh)}} \times 100$$

12. Net Intake Rate in the First Grade of Primary Cycle:

Definition: New entrants in the first grade of primary education who are of the official primary school entrance age (6 years), expressed as a percentage of the population of the same age (6 years in Bangladesh).

Purpose: Purpose is to precisely measures access to primary education by the eligible population of primary school-entrance age.

Calculation method: Divide the number of children of official primary school-entrance age who enter the first grade of primary education for the first time by the population of the same age, and multiply the result by 100.

$$\text{Formula} = \frac{\text{No. of pupils in Grade 1 of the legal admission age (6years)}}{\text{Population of same specific age (6years)}} \times 100$$

13. Net Enrolment Rate (NER)

Definition: Enrolment of the official age group for a given level of education (6–10 years in Bangladesh) expressed as a percentage of the corresponding population.

Purpose: To show the extent of coverage in a given level of education of children and youths belonging to the official age group corresponding to the given level of education.

Calculation method: Divide the number of pupils enrolled who are of the official age group for a given level of education by the population for the same age group and multiply the result by 100.

$$\text{Formula} = \frac{\text{No. of pupils of specified age in the cycle (6 to 10 years)}}{\text{Population of related school age (6 to 10 years in Bangladesh)}} \times 100$$

14. New Entrants

Definition: Pupils who are enter into grade 1 of primary education for the first time.

15. Out-of-Schools Children (OOSC)

Definition: Out-of-schools children are those children in the official schools age 6^{+}yrs to 10^{+}yrs range who are not enroll in any types of schools. This includes both the dropouts and never enrolled children into the schools.

Purpose: To identify the size of the population in the official primary school age range who should be targeted for policies and efforts in achieving universal primary education.

Calculation method: Subtract the number of primary school-age pupils enrolled in any types of school from the total population of the official primary school age range.

16. Primary Education (formal)

Definition: Formal primary education refers to education, as determined by the government for the children of age group 6^{+}yrs to 10^{+}yrs years in grades 1-5 having a prescribed national curriculum, textbooks, schools hours and the schools year, which begins in January and ends in December.

17. Primary Graduate:

Definition: A pupil or students who are successfully complete a level of education such as primary education (from grade 1 to 5 in Bangladesh) called primary graduate. In other words, total numbers of new entrants to the first grade of primary in a given year, regardless of age, who are expect to graduate from the last grade of primary education, regardless of repetition, expressed as a percentage of the population at the official graduation age from primary education in the same year.

Purpose: To estimate the future outputs of primary education based on current new entrants to the first grade of primary education assuming current grade transition and repetition rates as well as last grade graduation probability remain unchanged. It therefore predicts the effect on last grade graduation of current education policies on entrance to primary education and future years of schooling.

Calculation method: Multiply the expected gross intake ratio to the last grade of primary education by the probability of graduation at the last grade of primary. This indicator is calculated on the basis of the reconstructed cohort method

18. Promotion Rate by Grade

Definition: Proportion of pupils from a cohort enrolled in a given grade in a given schools year those studies in the next grade in the following schools year.

Purpose: It is measure the performance of the education system in promoting pupils from a cohort from grade to grade, and its effect on the internal efficiency of educational systems. It is also a key indicator for analyzing and projecting pupil flows from grade to grade within the educational cycle.

Calculation method: Divide the number of new enrolments in a given grade in a given schools year ($t+1$) by the number of pupils from the same cohort enrolled in the preceding grade in the previous schools year (t).

$$\text{Formula} = \frac{\text{No. of pupils promoted to grade } g + 1 \text{ in year } t + 1}{\text{Total number of pupils in grade } g \text{ in year } t} \times 100$$

19. Pupil Cohort

Definition: Pupil-cohort is a group of pupils who enter the first grade of any level of education in the same schools year and subsequently experienced promotion, repetition, dropout each in his or her own way.

20. Pupil Year

Definition: Pupil year is a non-monetary measure of educational inputs or resources. One pupil year denotes the resources spent to maintain a pupil in schools for one year.

21. Public Expenditure as a Percentage of Total Public Expenditure on Education

Definition: Total public expenditure on education (current and capital) expressed as a percentage of total government expenditure in a given financial year.

Purpose: Purpose is to assess a government's policy emphasis on education relative to the perceived value of other public investments. It reflects also the commitment of a government to invest in human capital development.

Calculation method: Divide total public expenditure on education incurred by all government agencies/departments in a given financial year by the total government expenditure for the same financial year and multiply by 100.

22. Repetition Rate

Definition: Proportion of pupils from a cohort enrolled in a given grade in a given schools year those studies in the same grade in the following schools year. DPE using reconstructed cohort for calculating repetition rate

Purpose: To measure the rate at which pupils from a cohort repeat a grade, and its effect on the internal efficiency of educational systems. In addition, it is one of the key indicators for analyzing and projecting pupil flows from grade to grade within the educational cycle.

Calculation method: Divide the number of repeaters in a given grade in a given schools year ($t+1$) by the number of pupils from the same cohort enrolled in same grade in the previous schools year (t).

$$\text{Formula} = \frac{\text{No. of pupils repeated in grade } g \text{ in year } t + 1}{\text{Total number of pupils in grade } g \text{ in year } t} \times 100$$

23. Student Teacher Ratio (STR):

Definition: Average number of pupils (students) per teacher at a specific level of education in a given schools year.

Purpose: To measure the level of human resources input in terms of the number of teachers in relation to the size of the pupil population. The results should be compare with established national norms (in Bangladesh 1:46) on the number of pupils per teacher.

Calculation method: Divide the total number of students enrolled at the specified level of education by the number of teachers at the same level.

24. Survival Rate

Definition: Percentage of a cohort of pupils (or students) enrolled in the first grade of a given level or cycle of education in a given schools year expected to reach successive grades, regardless of repetition. DPE uses UNESCO reconstruction cohort model for calculating survival rate

Purpose: The purpose is to measure the retention capacity and internal efficiency of an education system. It illustrates the situation regarding retention of pupils (or students) from grade to grade in schools, and conversely the magnitude of dropout by grade.

Calculation method: Divide the total number of pupils belonging to a pupil cohort who reached each successive grade of the specified level of education by the number of pupils in the schools cohort, i.e. those originally enrolled in the first grade of primary education, and multiplies the result by 100. Current survival rates to be estimate using the reconstructed cohort method. This technique calculates the survival rate for a theoretical cohort of children who experience the current promotion, repetition and dropout rates at each grade as they move through the schooling system. It uses data on enrolment and repeaters for two consecutive years.

25. Schools Life Expectancy (SLE)

Definition: Schools life expectancy for a child of certain age is defined as the total number of years of schooling which a child for certain age can expect to receive in the future, assuming that the probability of his or her being enrolled in school at any particular age is equal to the current enrolment ratio for that age. It is the sum of the age specific enrolment ratios for primary, secondary and higher education.

In other words, the total number of years of schooling which a child of a certain age can expect to receive in the future, assuming that the probability of his or her being enrolled in school at any particular age is equal to the current enrolment ratio for that age.

Purpose: Purpose is to show the overall level of development of an educational system in terms of the average number of years of schooling that the education system offers to the eligible population, including those who never enter school.

Calculation method: For a child of a certain age a , the school life expectancy is calculated as the sum of the age specific enrolment rates for the levels of education specified. The part of the enrolment that is not distributed by age is divided by the school-age population for the level of education they are enrolled in, and multiplied by the duration of that level of education. The result is then added to the sum of the age-specific enrolment rates.

26. Transition Rate (TR) from Primary to Secondary Education

Definition: The number of pupils (or students) admitted to the first grade of a higher level of education in a given year (grade 6), expressed as a percentage of the number of pupils (or students) enrolled in the final grade of the lower level of education in the previous year (grade-5).

Purpose: The purpose is to convey information on the degree of access or transition from one cycle or level of education to a higher one. Viewed from the lower cycle or level of education, it is considered as an output indicator. Viewed from the higher educational cycle or level, it constitutes an indicator of access. It can also help in assessing the relative selectivity of an education system, which can be due to pedagogical or financial requirements.

Calculation method: Divide the number of new entrants in the first grade of the specified higher cycle or level of education by the number of pupils who enrolled in the final grade of the preceding cycle or level of education in the previous schools year then multiply by 100.

$$\text{Formula} = \frac{\text{No. of new pupils in grade 6 of secondary level in year } t}{\text{No. of pupils in grade 5 of primary/ or passed in year } t - 1} \times 100$$

27. Years Input per Graduate

Definition: The estimated average numbers of pupil years spent by pupils (or students) from a given cohort who graduate from primary education, taking into account the pupil years wasted due to dropout and repetition. One schools year spent in a grade by a pupil is equal to one pupil year. DPE uses UNESCO reconstruction cohort model for calculating survival rate

Purpose: The purpose is to assess the extent of educational internal efficiency in terms of the estimated average number of years to be required in producing a graduate.

Calculation method: Divide the total number of pupil years spent by a pupil cohort (graduates plus dropouts) in the specified level of education by the sum of the successive batch of graduates belonging to the same cohort. This indicator is estimate using the reconstructed cohort method, which uses data on enrolment and repeaters for two consecutive years.

28. Urban Area

Definition: Urban areas of APSC refers to the area covered by municipalities, Upazila headquarters, District and divisional headquarters and City Corporations in the country

Source: As per “UNESCO Institute of Statistics, Education Indicators, Technical Guidelines, November 2009”

Acronyms

ADPEO	Assistant District Primary Education Officer
AMO	Assistant Monitoring Officer
APSC	Annual Primary School Census
ASC	Annual School Census (MoPME re-phrasing the name as APSC)
ASPR	Annual Sector Performance Report
ATEO	Assistant Thana Education Officer
AUEO	Assistant Upazila Education Officer
BANBEIS	Bangladesh Bureau of Educational Information and Statistics
BBS	Bangladesh Bureau of Statistics
B. Ed.	Bachelor of Education
BNFE	Bureau of Non-Formal Education
BRAC	Bangladesh Rural Advancement Committee
C-in-Ed	Certificate in Education
CHTs	Chittagong Hill Tracts
CPD	Continuous Professional Development Training
CS	Community School
DD	Deputy Director
DLI	Disbursement-Linked Indicator
DPE	Directorate of Primary Education
DPEd	Diploma in Education
DPEO	District Primary Education Officer
DPs	Development Partners
DR	Descriptive Role
EAHM	Ebtedayee Attached to High Madrashah
EBM	Ebtedayee Madrashah
EECE	Ebtedayee Education Completion Exam
EFA	Education for All
Expt.	Experimental School
GER	Gross Enrolment Rate
GIR	Gross Intake Rate
GPI	Gender Parity Index
GPS	Government Primary School
HT	Head Teacher
ICT	Information and Communication Technology
IMD	Information Management Division

KG	Kindergarten
KPI	Key Performance Indicator
LCs	Learning Centres
LGED	Local Government Engineering Department
M&E	Monitoring and Evaluation (Division)
MOC	Ministry of Commerce
MoE	Ministry of Education
MoPME	Ministry of Primary and Mass Education
MoSW	Ministry of Social Welfare
NER	Net Enrolment Rate
NGO	Non-Government Organization
NIR	Net Intake Rate
NNPS	Newly Nationalized Primary School
Non-KPI	Non-Key Performance Indicators
NRNGPS	Non- Registered Non-Government Primary School
NSA	National Student Assessment
PAHS	Primary attached to High School
PEDP II	Second Primary Education Development Programme
PEDP3	Third Primary Education Development Programme
PECE	Primary Education Completion Examination
PPE	Pre Primary Education
PSQL	Primary School Quality Level
PTI	Primary Training Institute
RNGPS	Registered Non-Government Primary School (currently NNPS)
ROSC	Reaching Out-of-School Children
SCR	Student-Classroom Ratio
SK	Shishu Kollyan
SLIP	School-Level Improvement Plan
SMC	School Management Committee
STR	Student-Teacher Ratio
TEO	Thana Education Officer
UEO	Upazila Education Officer
UNESCO	United Nations Education Scientific and Cultural Organization
URC	Upazila Resource Centre

Executive Summary

The Annual Primary School Census conducted by Directorate of Primary Education during 2015 contains the major findings of the situation of primary education in Bangladesh. The main objective of the census is to provide updated information for assessing the performance of the primary education sector through PEDP3 indicators. It shows some of indicators' achievement trends compare to the PEDPII (2005) and mostly PEDP3 baselines (2010). The policymakers, planners, education managers and Development Partners (DPs) of the PEDP3 could use this information for monitoring the progress of various interventions as well as for the future planning. It can be mentioned that DPE has been piloted the online APSC data collection process at 32 upazilas in 2015 and those collected data has been integrated into the national APSC 2015 database. The main objectives of APSC 2015 as follows:

- ✓ Provide up-to-date information of the primary education sector to the policy makers, planners, DPs and other relevant stakeholders for tracking and monitoring the overall progress of this sector as well as future planning and adjustment of the existing plan of the PEDP3 when required;
- ✓ Provide APSC report and dataset as a working document for the different levels of decision makers to monitor the activities being carried out at different level based on Annual Operation Plan (AOP) of PEDP3 and;
- ✓ Provide latest authentic information for preparing the Annual Sector Performance Report (ASPR), sub-component progress report and DLIs progress report as PEDP3 requirement.

The preparation of APSC is a complex and complicated process especially in terms of its coverage. It collects wider range of information considering the requirement of PEDP3. To accomplish the massive task efficiently, DPE provides orientation to the Assistant District Primary Education Officers (ADPEO), Assistant Monitoring Officers (AMO), Assistant Upazila/Thana Education Officers (AUEO/ATEO), Data Entry Operators (DEO) and other relevant officials on the APSC data collection methodology including online data collection process. DPE supplies them the structured questionnaire as well as online software. All the respective Headteachers fill-up the questionnaire to integrate the schools data with the assistance of oriented officials. The DPEOs, ADPEOs, UEOs and AUEOs supervise and ensure the quality of data collection process. The Data Entry Operators (DEO) enters the data into the upazila APSC dataset software and sends soft copy to their respective DPEO offices. The assigned officials of DPEO offices are responsible for crosschecking and sending soft copy to the IMD of DPE After receiving the datasets; IMD appends all upazila datasets, checks, cleans and make a national APSC database.

The structure of APSC 2015 report has been remained the same as previous one. It includes some tables and figures by divisions and districts to present the required data. In this report, the Tables and Figures are also segregated by gender as well as by type of schools. The following paragraphs summarize the main findings of the 2015 school census compared to the PEDPII (2005) and PEDP3 (2010) baseline.

Chapter-1 is the introductory chapter and summarizes the basic information e.g. total schools, teachers, and students of primary education. It also includes the background, PEDP3 indicators, objectives, scope,

methodology, limitation and future plan of the APSC. Chapter-2 summarizes the pre-primary related information of primary education. Chapter-3 summarizes the access and participation of primary education. Chapter-4 summarizes the internal efficiency related information on primary education. Chapter-5 summarizes the teacher information on primary education and Chapter-6 includes all of annexure. The main findings of the APSC 2015 reports are presents below:

- ❖ A total of 1, 22,176 schools of 25 categories covered in the APSC 2015 with a total number of students 19,067,761 of which 96, 98,682 are girls. The total number of female teacher is 3, 14,299 out of 5, 27,798 teachers.
- ❖ The Ministry of Primary and Mass Education (MoPME) manages around 59.1% (formal schools: 31.4% are GPS, 20.7% are NNPS, 0.1% are RNGPS, 1.6% are NRNGPS, 0.1% are Community and 0.05% are Experimental schools; MoPME managed non-formal schools/LCs: 0.1% are Shishu Kollyan and 5.1% are ROSC schools) of total primary schools of the country.
- ❖ In the MoPME managed schools more than 64% teachers has been working (42.8% in GPS, 18.3% in NNPS, 0.1% in RNGPS, 1.4% in NRNGPS, 0.6% in Community and 0.05% in Experimental schools, 0.08% in Shishu Kollyan and 1.2% in ROSC schools).
- ❖ More than 75.1% of student is enrolled in the MoPME managed schools (50.2% in GPS, 22.1% in NNPS, 0.1% in RNGPS, 1.4% in NRNGPS, 0.1% in Community and 0.1% in Experimental schools; MoPME managed non-formal LCs 0.1% in Shishu Kollyan and 1% in ROSC schools).
- ❖ In 2015, the total enrolment in pre-primary classes is 2,864,877. Among them, 1,450,546 are Boys and 1,41,4331 are Girls.
- ❖ 93,247 primary schools and LCs are providing pre-primary education in 2015. Among these, 37,985 are in GPS, 23,949 are in NNPS.
- ❖ The GIR in the formal primary education sector is 109.2 % (Boys 109.5% and Girls 109%) and the NIR is 97.9% (boys 97.6% and girls 98.1%) in 2015.
- ❖ The Gross Enrolment Rate (GER) is 109.2% (Boys 105% and Girls 113.4%) in 2015. This indicates that the system has sufficient capacity to accommodate all children of primary school age.
- ❖ Net Enrolment Rate (NER), is calculated 97.9% (Boys 97.1% and Girls 98.8%) in 2015. Total enrolment in formal primary education of children aged 6–10 appears gradually increasing since 2010.
- ❖ As part of the commitment to monitor progress in inclusive education, the school census collects data on enrolment for six main categories of children with special need (physical, visual, hearing, speaking mental and autistic). In 2015, total enrolment of children with special needs in the primary schools is 85,204. Among them, 47,638 are Boys and 37,566 are Girls.

- ❖ Among all types of schools, 39,744 schools operate single shift. Out of these schools 2 main categories of schools – GPS are 8,255 and NNPS are 552.
- ❖ According to the APSC data, absenteeism rate has been following a declining trend between 2010 and 2015 among both boys and girls was standing at 13.1 % (Boys 13.2%and Girls 13%) in 2015. It indicates that students' absenteeism rate is gradually declining.
- ❖ In 2015, repetition rate stands 6.2% (boys 6.4% and girls 6%) in all grades, significantly improved from the 12.6% in the PEDP3 baseline.
- ❖ The survival rate to Grade 5 increased rapidly from 52% in 2010 to 81.3% (boys 77.9% and girls 84.7%) in 2015.
- ❖ Completion rate has risen nearly 20 percentage points from 60% at the commencement of PEDP3 in 2010 to 79.6% in 2015 (boys 76.1% and girls 83%).
- ❖ The overall Dropout Rate in the year 2015 is 20.4 % (boys 23.9% and girls 17%) whereas it was 47.2% in the year 2005 and 39.8% in 2010. It indicates that the dropout rate reducing gradually.
- ❖ “Coefficient of Efficiency” The coefficient of efficiency has improved considerably between 2010 and 2015. In 2015, coefficient of efficiency is 80.1% (boys 77.8% and girls 82.3%) compare to 62.2% (boys 62.8% and girls 61.8%) in 2010.
- ❖ “Years Input per Graduate”is 6.2 (boys 6.4 and girls 6 years) in 2015.

The findings of the current 2015 APSC report indicate all most all the indicators are moving forward. Although, the figures of APSC 2015 show some satisfactory levels of access and participation but there remain scopes for further improvement in the above-mentioned indicators.

Some Key Findings of the APSC - 2015 at a glance

Indicators		PEDP3 Baseline 2010	APSC 2014	APSC 2015
1. No. of schools covered by APSC		78,685	108,537	122,176
2. Total Teachers	Male	200,743	203,779	213,499
	Female	194,538	279,105	314,299
	All	395,281	482,884	527,798
3. Total Enrolled Students	Boys	8,473,961	9,639,095	9,369,079
	Girls	8,563,133	9,913,884	9,698,682
	All	16,957,894	19,552,979	19,067,761
4. Total Pre-primary Enrolment	Boys	627,520	1,581,605	14,50,546
	Girls	595,077	15,06,855	14,14,331
	All	1,222,597	3,088,460	28,64,877
5. Gross Intake Rate - GIR (%)	Boys	115.4	109.1	109.5
	Girls	118.5	108.3	109
	All	116.9	108.7	109.2
6. Net Intake Rate- NIR (%)	Boys	98.8	97.6	97.63
	Girls	99.5	98.1	98.07
	All	99.1	97.9	97.91
7. Gross Enrolment Rate- GER (%)	Boys	103.2	104.6	105
	Girls	112.4	112.3	113.4
	All	107.7	108.4	109.2
8. Net Enrolment Rate – NER (%)	Boys	92.2	96.6	97.09
	Girls	97.6	98.8	98.79
	All	94.8	97.7	97.94
9. Cycle Dropout rate (%)	Boys	40.3	24.3	23.9
	Girls	39.3	17.5	17
	All	39.8	20.9	20.4
10. Survival rate (%)	Boys	65.9	77.6	77.9
	Girls	68.6	84.4	84.7
	All	67.2	81	81.3
11. Cycle Completion rate (%)	Boys	59.7	75.7	76.1
	Girls	60.7	82.5	83
	All	60.2	79.1	79.6
12. Coefficient of Efficiency	Boys	62.8	77.3	77.8
	Girls	61.8	82.7	82.3
	All	62.2	80	80.1
13. Year inputs per graduate	Boys	8.0	6.5	6.4
	Girls	8.1	6	6.1
	All	8	6.2	6.2
14. Repetition rate (%)	Boys	12.8	6.9	6.4
	Girls	12.4	6	6
	All	12.6	6.4	6.2
15. Absenteeism rate (%)	Boys	17.2	13.4	13.2
	Girls	16	13.2	13
	All	16.5	13.3	13.1
16. Attendance Rate (%)	Boys	82.8	86.6	86.8
	Girls	84	86.8	87
	All	83.5	86.7	86.9
17. PECE Pass rate (%)	Boys	92.7	97.9	n/a
	Girls	92	98	n/a
	All	92.3	97.9	n/a

Chapter

One

Introduction

1. CHAPTER 1: INTRODUCTION

1.1 Background

Primary Education is one of the most important sectors in Bangladesh. After independence in 1971, there were various efforts undertaken to achieve universal primary education. This aspiration is clearly reflected in the Article 17 of the Constitution of the People's Republic of Bangladesh, which states "establishing a uniform mass oriented and universal system of education and extending free and compulsory education to all children to such stage as may be determined by law". This aspiration subsequently embedded in the legislation, policies and programmes of the Government.

The primary education system in Bangladesh is one of the largest systems in the world. The country has undertaken a number of measures to improve primary education since its independence. commendable progress in access and gender equity is the major achievements of these efforts. However, in terms of quality education, student's learning achievement and reduction of dropout Bangladesh has not yet made similar breakthrough.

With a view to improve the quality of primary education, the Government of Bangladesh has undertaken an integrated sub-sector wide programme known as PEDP since 2005 in assistance with development partners. Now the Third Primary Education Development Programme (PEDP 3) for 2011-2016 (extended upto 2017) is running to improve the quality at all levels of the primary education sub sector. The key objectives of the PEDP 3 are:

- ❖ To improve the quality of primary education in Bangladesh through the introduction of Primary Schools Quality Level (PSQL) standards;
- ❖ To make primary education accessible for all children in Bangladesh;
- ❖ To increase enrolment, attendance and the rate of completion of the primary education cycle;
- ❖ To adopt a child-centred approach in the classroom;
- ❖ To fully integrate the PEDP3 activities within the organizational and operational systems of the Ministry of Primary and Mass Education and the Directorate of Primary Education;
- ❖ To undertake institutional reforms in education planning, management and it's effective decentralization and the devolution of decision making authority;
- ❖ To strengthen and build the capacity of the school management system at all levels;
- ❖ To ensure accountability and transparency at all levels;
- ❖ To supply textbooks and teaching- learning materials free of cost; and
- ❖ To strengthen the role of the community, particularly parents for running and supporting their schools.

The PEDP 3 document mentioned a set of Key Performance Indicators (KPIs) and Primary Schools Quality Level (PSQL) indicators to monitor the progress of the provision of inputs under the programme and provide the basis for measuring the improvement in quality of the primary education sub-sector.

A set of KPIs and PSQL indicators has been considered for measuring the primary education sector performance and collecting information through regular monitoring of the programme intervention. The list of revised KPIs and PSQLs are as follows:

KPIs	PSQLs
1. Level of achievement in Grade 3: mean score (Boys and Girls)a. Bangla b. Mathematics	1. Percentage of schools receive all new textbooks by January 31
2. Level of achievement in Grade 5: mean score (Boys and Girls) a. Bangla b. Mathematics	2. Percentage of (assistant and head) teachers with professional qualification (C-in-Ed, DPEd, B.Ed. and M.Ed.) (EFA-9 , 10)
3. Grade 5 examination pass rate (Boys and Girls)	3. Percentage of (assistant and head) teachers who receive subject based training
4. Number of children out of schools (Boys and Girls) 6–10 years old and 11–14 years old	4. Percentage of (assistant and head) teachers who receive sub-cluster training
5. GER, primary education (Boys and Girls)	5. Percentage of schools (GPS/NNPS) with pre-primary
6. NER, primary education (Boys and Girls)	6. Number of enrolled children with special needs
7. [Participation] Gender parity index of GER	7. Percentage of schools with at least one functioning toilet
8. [Participation] NER – Range between top 20% and bottom 20% of households by consumption quintile	8. Percentage of schools with separate functioning toilets for girls
9. Upazila-level composite performance indicator a. Annual improvement of 20% lowest performing Upazilas b. Range between top 10% and bottom 10% of Upazilas	9. Percentage of schools have safe water sources: functioning tube well and/or other sources
10. Number and types of functions delegated to districts, Upazilas and schools	10. Percentage of schools that meet the student classroom standard of 40
11. Expenditure of block grants (conditional and unconditional) for Upazilas and schools	11. Percentage of standard size classrooms and larger constructed
12. Completion rate, primary education (Boys and Girls)	12. Percentage of schools having received SLIP grants
13. Dropout rate by grade	13. Percentage of head teachers who received training on leadership
14. Number of input years per graduate	14. Percentage of schools that meet the student teacher ratio (STR) standard of 46:1 (EFA-11)
15. Percentage of schools that meet composite primary schools-level quality indicators	

Source: PEDP3 main document (MTR 2015 revised version)

This APSC 2015 report is based on data collected via the 2015 school census. The survey was undertaken by the M&E and IMD of DPE together including 32 upazilas on web-based online system. The APSC is conducted in February-March every year covering all types of schools (public, private and independent).

1.2 Objective of the Annual Primary School Census 2015

This report contains information aimed largely at supporting the MoPME, DPE and DP's as well as other government departments, in planning and decision-making. Additionally, it serves as a rich source of information for the research community as well as the public in general.

The ultimate objective of the APSC 2015 is to collect necessary data for measuring the current trend of primary education comparing with the baseline survey by using the above KPIs and PSQL indicators. The 2005 Baseline Survey provided initial benchmark figures for the above KPIs and PSQL indicators.

1.3 Scope of the Annual Primary School Census 2015

APSC 2015 report covers twenty-five types of primary level educational institutions offering primary education in Bangladesh. The census questionnaire collects information on enrolment, attendance, repetition, teachers' qualifications, SMC's information, water and sanitation, SLIPs, physical infrastructure and availability of teaching-learning materials. To adjust the PEDP3 requirement, new information on pre-primary education, distribution of textbooks, stipend beneficiaries, ICT information and school feeding beneficiaries etc. integrated into the APSC since 2013.

1.4 Methodology

The methodology of Annual Primary School Census 2015 is almost the same with the previous year. The APSC has attempted to ensure covering all types of primary level educational institutions all over the country in this year census. The methodology of APSC 2015 is as follows:

1.5 Preparation of the Questionnaire

APSC 2015 collects data by using a comprehensive questionnaire. Initially the questionnaire was prepared according to the questionnaire of Baseline Survey 2005 as per its requirements. Subsequently M&E division has modified and updated the questionnaire by arranging different workshops with related stakeholders. M&E division has also incorporated some recommendations from the Third Party Validation Report. The data collection questionnaire comprises of several segments like general information of the school location, data of students' enrolment, number of teachers, teachers' training, textbooks, physical infrastructure including other facilities and school management committees etc. The M&E division has distributed the questionnaire along with instruction (in Bangla) to schools through DPEOs, UEOs and AUEOs sequentially.

1.6 Data Collection and Data Entry

The individual primary schools are the basic unit for data collection. The Head Teachers of schools fill up the questionnaire and forward it to their respective Assistant Upazila Education Officers (AUEOs). The AUEOs check the questionnaire, sign and submit it to their respective Upazila Education Officers (UEOs). The UEOs further check, sign and forward it to respective Upazila Resource Centre (URC) for entry. The UEOs with the help of URC Data Entry Operators complete the data entry and submit a soft copy of the data set to concern DPEO office. The DPEOs append and send the whole districts data set to Information Management Division (IMD) of DPE. In addition, we have collected 32 Upazilla's data through online system in APSC 2015. The duration of data collection was January 2015 to March 2015.

1.7 Data Cleaning, Processing and Analysis

IMD initially checks all data sets received from 64 districts and appends data as a whole to prepare a national level APSC database. IMD then initiates to clean the data in consultation with M&E personnel and concern APSC consultants. IMD cleans the data following a prescribed APSC Data Cleaning Manual developed by DPE. It also confirms the consistency, accuracy of data and ensures the quality of APSC. The M&E Division and IMD of DPE process analyze and generate districtwise data tables and essential figures such as enrolment, dropout, internal efficiencies etc. of APSC with the assistance of consultants. We collect the previous enrolment along with current enrolment (Questionnaire: subsection 1.1) of different types of school in every census. Due to every year the census covers the more number of schools. In this census, we consider only three types of primary educational institutions named GPS, NNPS and Experimental Schools in reconstructed cohort analysis where as this previous enrolment as one of the inputs (Annex-C).

1.8 Data Validation

There was a provision to validate the APSC data to ensure the high level of accuracy by third party APSC validation exercise on the sample basis. Accordingly, third party validation exercise conducted from 2010 to 2014. Based on PEDP3 revised main document, this year (2015) being integrate all of the recommendation mentioned in the validation report to the APSC 2015 report. Moreover, internal validation mechanism is built-in the APSC questionnaire as well as APSC data entry software. Therefore, 2015 APSC data has validated automatically during fill-in the questionnaire and also the data entry process. It is very much worthy to mention that the quality of APSC 2015 data is reasonably high quality. The previous data validation reports did not recommend adjusting or correcting any of indicators. Meanwhile, 2014 validation survey and APSC 2014 data found to be statistically insignificant as no need to adjust the indicators.

1.9 Population Cohort (6-10 years)

From 2005 to 2010, DPE used the BBS 6-10 years' population data for calculating GIR, NIR, and GER & NER through projection of 2001 population census in preparing APSC. After that, the BBS conducted

Population Census in 2011. DPE uses the BBS provided single year age population data on the basis of Census-2011 for calculating GIR, NIR, GER and NER for APSC-2015. Therefore, the school age population has been calculated in the APSC 2015 by considering this single age population. However, in the school age population cohort analysis process, the death rate has been overlooked.

1.10 Approval of the APSC

There are two committees for reviewing and advising on the methodologies and approval of APSC report such as:

- ✓ Technical Committee in DPE and;
- ✓ National Committee on Primary Education Statistics, MoPME

Technical Committee in DPE comprised of 13 members headed by Director General of DPE. The role of this committee is primarily to review and make observations on the draft report of APSC. After incorporating the agreed observations and recommendations, the committee approve the draft report. Finally, DPE sends the report to the MoPME for approval.

The structure of Technical Committee in DPE is as follows:

1. DG, DPE, Chairman
2. DG, DSHE, member
3. DG, DNFE, member
4. DG, CPEIMU, member
5. Director, M & E, DPE, member
6. DS (Dev-1), MoPME, member
7. Representative of BBS, member
8. Director, BANBEIS, member
9. Representative, NGO Bureau, member
10. Prof. Saleh Ahmed, Ex. VC of Jahangir Nagar University, member
11. Prof. Dr. M Kabir, Department of Statistics, Dhaka University, member
12. Prof. Siddiqur Rahman, IER, Dhaka University, member
13. DD (M&E), DPE, member Secretary

National Committee on Primary Education Statistics in MoPME comprised of 12 members headed by the Secretary, MoPME. This committee finally approves the APSC report.

The structure of the National Committee on Primary Education Statistics is as follows:

1. Secretary, MoPME, Chairman
2. Representative from MOE, member
3. Secretary, Statistical Division, member
4. Member, Economic Infrastructure Division of Planning Commission, member
5. Mr. Waliul Islam, Ex-secretary, BD, member
6. Additional Secretary, MoPME, member
7. Joint Secretary, MoPME, member
8. DG, DPE, member
9. DG, BNFE, member
10. DG, CPEIMU, member

1.11 Organization of the Report

The APSC 2015 report comprises the following five main chapters and Annexure chapter:

- ✓ Chapter 1: Introduction,
- ✓ Chapter 2: Pre-primary Education,
- ✓ Chapter 3: Access and Participation,
- ✓ Chapter 4: Internal Efficiency,
- ✓ Chapter 5: Teachers Information and
- ✓ Chapter 6: Annexure (total 12 annexes)

There are twelve annexes includes in the chapter 6. The report presents mainly the statistical Tables. Some tables and figures also provide the information and trend of achievement as readers could easily understand and contrast the data in line with the previous years.

The tables and figures are organized mainly focus for computing the KPIs, Non-KPIs and PSQLs of PEDP3. Most of the tables arranged with gender segregated historical data starting from the PEDPII baseline (2005) to present the changes over the period. District and Division wise tables are also prepared to reflect the geographical differences for some of indicators.

1.12 Limitations of the Annual Primary School Census 2015

The Annual Primary School Census has been conducting since 2005 and started with only four types of schools (GPS, RNGPS, Community and Satellite Schools) and DPE is extending its coverage gradually. Almost twenty-five types of schools that provide primary education in Bangladesh have been covered in this report this year. However, still there might be some more primary schools, which are outside the coverage of the APSC-2015, that are not directly under the purview of DPE. Morevoer, many of these institutions do not have formal institutional set up in terms of land, physical infrastructure, and regular teachers and students enrolment. As a result, it is difficult to collect data from all types of schools.

Head teachers usually fill up the APSC questionnaire but due to time, capacity and budget constraints so far DPE could not able to orient ahuge number of Headteachers which is extremely necessry to accomplish the function properly.

1.13 Future Plan of APSC

Since 2005, the M&E Division has been publishing APSC report each year. After a review of the process, the DPE management develops a plan to accelerate the preparation of the report and ensuring the timely dissemination, considering its increasing demand from different users. DPE has also plan to collect data from field through web based software in future and the total work of APSC from data collection to publishing the final report will be completed within the calendar year. In the mean time DPE has piloted the online data collection process at 20 upazilas in 2014 and implemented in 32 upazilas in 2015. Based on the lesson learnt, it will be scaling up to cover all of the upazila of the country in future.

1.14 Pre- Primary and Primary Education by type of Institutions

This report covers 25 types of formal and non-formal primary education institutions. The management and coordination of these schools and madrashas is fragmented with five different authorities. For each school type, The following Table 1.1, 1.2 and Figure 1.1, 1.2 and 1.3 show the total schools, teachers and student covered in the APSC 2015.

Table1.1: Pre -Primary Education Institution and Students by Type and Gender 2015

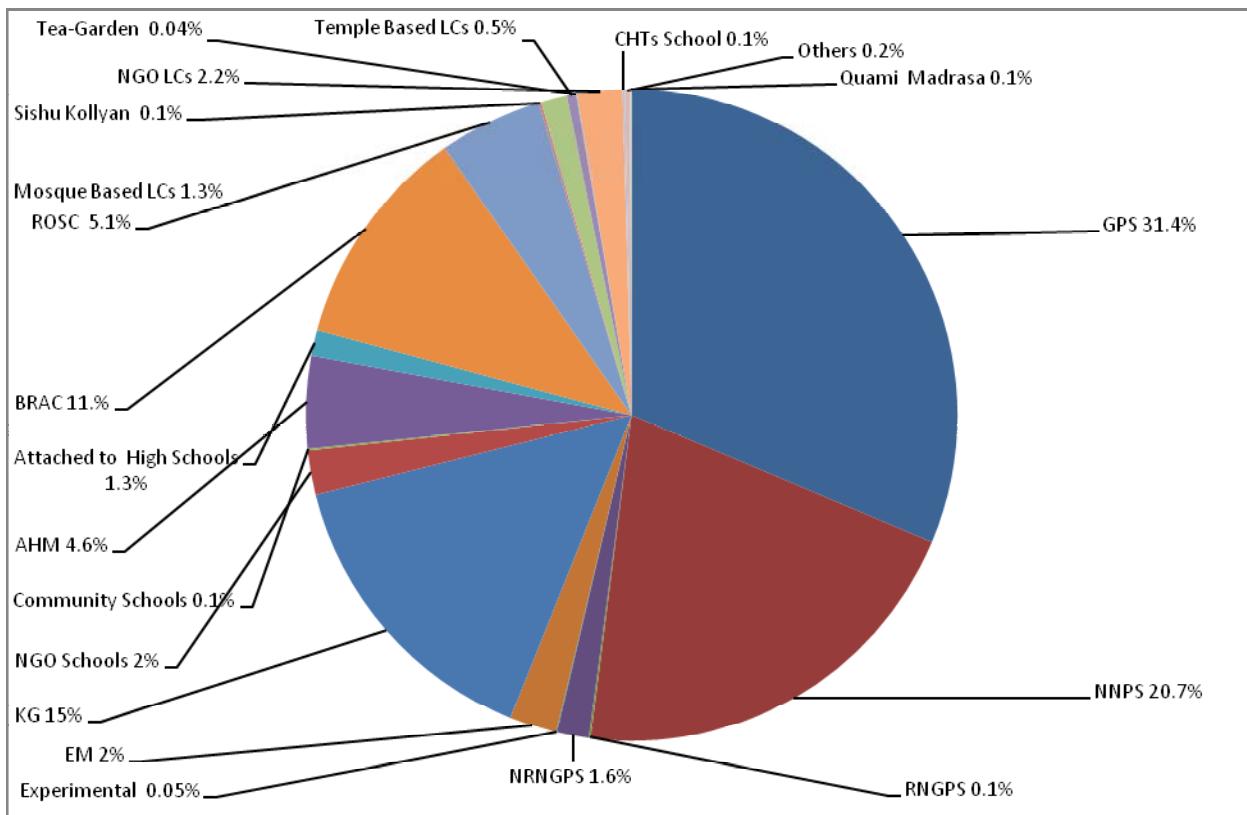

Type of School	No. of Institute	Students			% of Girl

E. NGO Bureau Managed School (serial 23 to 25)										
23. NGO School	2,680	1,698	4,259	5,957	72	105,285	114,683	219,968	52	37
24. LCs of BRAC	13,522	504	13,382	13,886	96	143,110	189,585	332,695	57	24
25. Other NGO LCs	2,750	296	2,649	2,945	90	38,858	44,032	82,890	53	28
Total (E)	18,952	2,498	20,290	22,788	89	287,253	348,300	635,553	55	28
Grand Total (A+B+C+D+E)	122,176	213,499	314,299	527,798	60	9,369,079	9,698,682	19,067,761	51	36

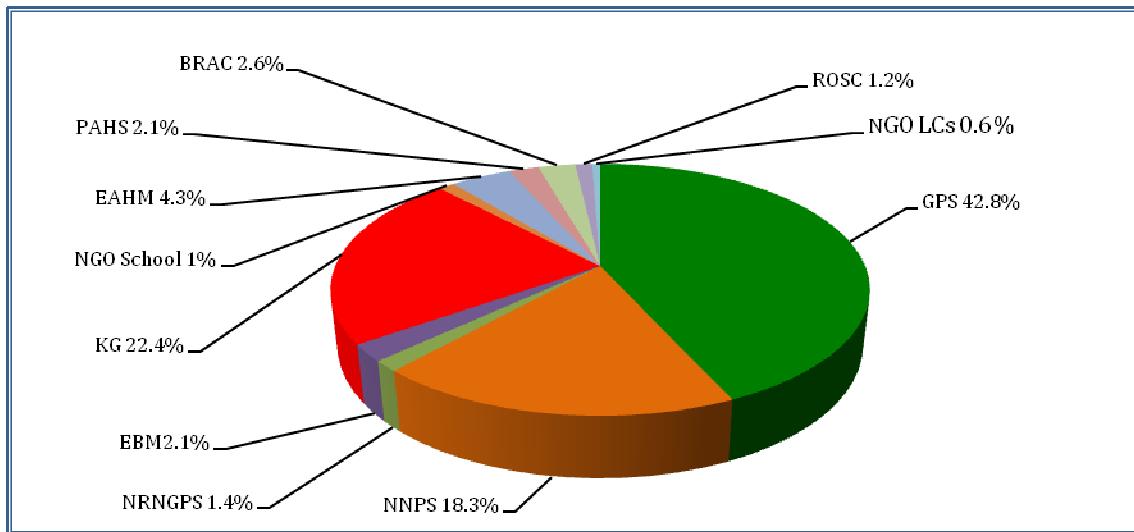

Note: In 2015, the total number of institutions has been raised mainly due to the increase of the number of KG schools, LCs of BRAC and ROSC in comparision with APSC 2014. The increase in number of two leading categories (GPS & NNPS) is due to establishment of new GPS and nationalization of non-government schools. It can be noted that Quami Madrasha is included for the first time into the APSC 2015.

Figure1.1: Percentage of Primary Level Educational Institutions by Types (%) 2015

The above Figure 1.1 shows the different types of primary schools in terms of percentage of total primary schools/LCs in the country. The figure shows that the coverage is in GPS 31.4%, NNPS 20.7%. RNGPS 0.1%, NRNGPS 1.6%, Experimental schools 0.05%, Community schools 0.1%, ROSC 5.1%, and Shishu Kollyan 0.1%. It is noted that DPE managed eight categories of school represents 59.1% of all types of primary schools/LCS in Bangladesh.

Figure 1.2: Percentage of Teachers in Major Types of Schools 2015

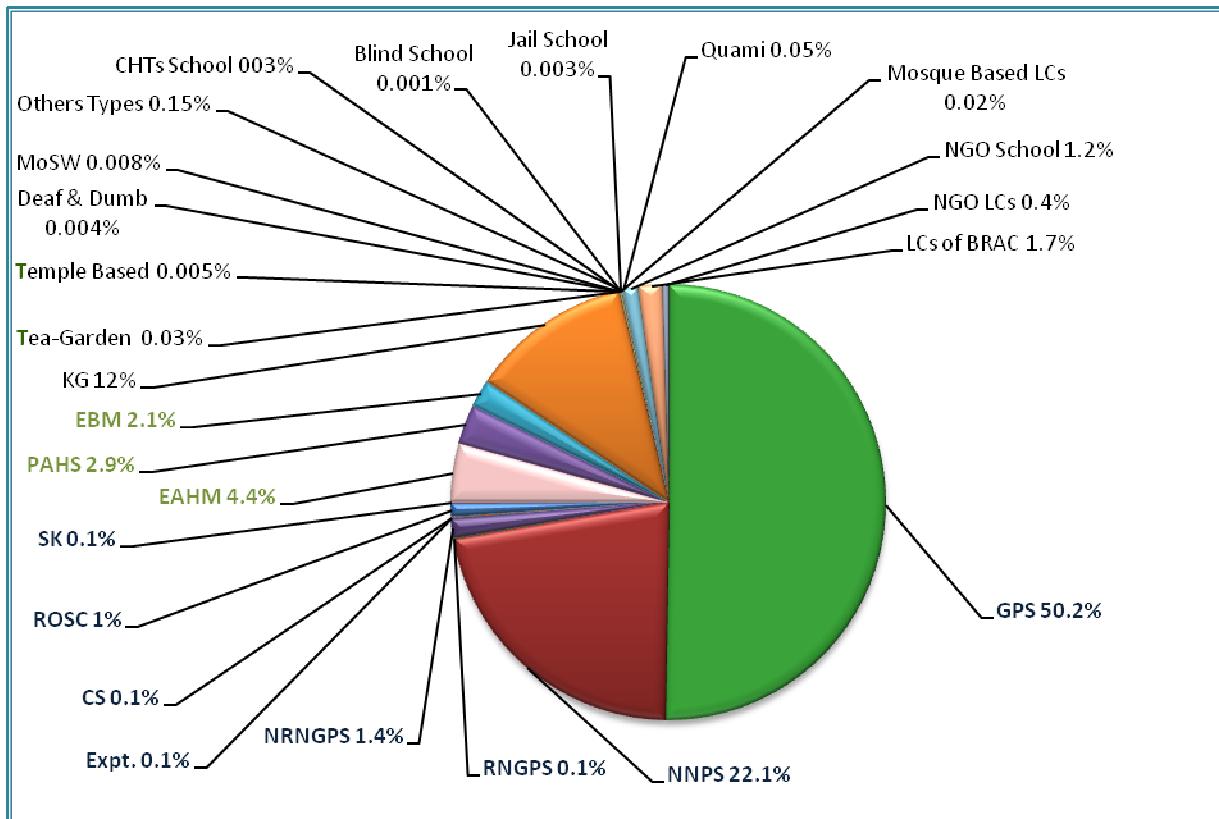

The total number of teachers is 527,798. Of these, male teachers are 213,499 (40.5%) and female teachers are 314,299 (59.5%). The percentages of female teachers in the two major categories of schools - GPS and NNPS – are 66.4% and 51% respectively. The share of female teachers has been increased significantly in the past six years from 43.5% in 2009 to 59.5% in 2015.

Table 1.1: Number of Students by Gender 2011-2015

Gender	2011	2012	2013	2014	2015
All	18,432,499	19,003,210	19,584,972	19,552,979	19,067,761
Boys	9,293,319	9,540,102	9,780,952	9,639,095	9,369,079
Girls	9,139,180	9,463,108	9,804,020	9,913,884	9,698,682

The total enrolled students are 19,067,761 (Boys 9,369,079 and girls 9,698,682) of 122,176 primary level educational institutes in 2015. The percentage of girls is 50.9% for all types of schools. The percentages of girls in the two major categories of schools - GPS and NNPS are 51.9% and 51.2% respectively.

Figure 1.3: Percentage of Students by Types of Schools and LCs 2015

Chapter

Two

Pre-primary Education

2. CHAPTER 2: PRE-PRIMARY EDUCATION

2.1 Introduction

Pre-Primary Education (PPE) plays a vital role in ensuring timely enrolment in schools and also contributes to better learning of the children in subsequent years. It is very useful to prepare children for enrolment in formal primary education through pre-primary exposure. After completing Pre-Primary, children adapt him / her to the school environment and get prepared for formal education from grade 1 and onward. In this chapter, data regarding PPE is presented in following tables:

In this chapter, data regarding PPE is present in the following Table 2.1 to 2.5 and Special need children's enrolment PPE in Table 2.6 and 2.7 and Figure 2.1:

- ❖ Enrolment in pre-primary by division, gender and type of schools;
- ❖ Enrolment in pre-primary by district and gender in GPS, RNGPS, NRNGPS;
- ❖ Enrolment in pre-primary by district and gender in experimental schools, Ebtedayee madrashas and community schools and;
- ❖ Number of institutes with PPE by division, district and types of schools, districts and divisions.

Table 2.1: Number of Institutes Providing Pre-primary Education by Type of Schools 2015

Chapter

Three

Access and Participation

In Primary Education

3. CHAPTER 3: ACCESS AND PARTICIPATION IN PRIMARY EDUCATION

3.1 Introduction

Bangladesh is committed to achieve Universal Primary Education in line with the targets of the Millennium Development Goals, which envisages the provision of a quality basic education for all children by 2015. As a result, the primary education system in Bangladesh aims to maximize the enrolment of all primary school age (6-10 years) children. This chapter presents the findings of access to and participation in primary education in Bangladesh. In this chapter, data has clustered into enrolment in grade-I, new entrants in grade-I, gross and net intake rate and trend since 2005, enrolment in all types' schools, gross and net enrolment and grade wise enrolment by division, district, gender and types of institutions.

As part of the commitment to monitor progress in inclusive education, the school census also collects data on enrolment of children with special needs.

Table3.1:Division and Genderwise Enrolment in Grade 1 (All schools) 2015

Division	No of schools	Total Enrolmentin Gr-1 (Regardless of Age)			Enrolment in Gr-1 of 6 Years Age		
		Boys	Girls	All	Boys	Girls	All
Barisal	7,752	122,418	119,508	241,926	95,912	93,604	189,516
Chittagong	21,726	386,804	372,942	759,746	342,922	332,990	675,912
Dhaka	35,108	601,044	584,026	1,185,070	517,101	498,964	1,016,065
Khulna	12,816	192,565	177,130	369,695	151,753	145,600	297,353
Rajshahi	17,720	235,917	222,667	458,584	188,892	182,823	371,715
Rangpur	15,031	235,558	225,449	461,007	181,185	173,662	354,847
Sylhet	12,023	151,152	151,409	302,561	127,238	127,041	254,279
Total	122,176	1,925,458	1,853,131	3,778,589	1,605,003	1,554,684	3,159,687

Note: In 2015, grade-I enrolment is slightly declined in the GPS and NNPS which is very much consistent with the declining trend of national population as well as growth rate.

Table3.2:District and Genderwise Enrolment in Grade 1 (all schools with Repeaters) 2015

Div.	District	No. of Institutes	Total Enrolmentin Grade-1 (Regardless of Age)			Enrolment in Gr-1 of 6 Years Age

3.3 Enrolment of Special Need Children

As part of the commitment to monitor progress in inclusive education, the school census collects data on enrolment of children with special needs. There are six types ‘mild and moderate disabilities included into the APSC questionnaire such as physically handicapped, poor eyesight, Short of hearing, Problem in Speech, intellectual/mentalretarded and Autistics and accordingly collect information from all of the schools. The following tables summarize the information on special need children.

Table 3.24: Grade wise Enrolment of Special Need Children by Type of Disabilities and Gender in All Types of Schools 2015

Type of Disabilities	Grade 1		Grade 2		Grade 3		Grade 4		Grade 5		Grand Total		
	Boys	Girls	Boys	Girls	All								
Physical Handicap	4,044	2,632	3,304	2,408	3,382	2,362	3,121	2,391	2,249	1,944	16,100	11,737	27,837
Poor Eyesight	1,304	948	1,396	1,103	1,356	1,108	1,419	1,222	1,209	1,019	6,684	5,400	12,084
Short Of Hearing	440	380	527	420	510	418	460	440	377	371	2,314	2,029	4,343
Problem in Speech	2,617	2,037	2,211	1,788	1,998	1,680	2,068	1,643	1,357	1,171	10,251	8,319	18,570
Intellectual/ Mental	3,120	2,269	2,463	2,029	2,061	1,818	1,714	1,549	1,053	992	10,411	8,657	19,068
Autistics	429	294	254	196	206	160	179	154	131	94	1,199	898	2,097
Others	175	121	126	118	154	99	125	97	99	91	679	526	1,205
Total	12,129	8,681	10,281	8,062	9,667	7,645	9,086	7,496	6,475	5,682	47,638	37,566	85,204

Note: The mainstreaming of disable children under inclusive education gradually declining in the DPE managed schools. The general perception for decreasing is correctly categories of the disabilities by the teachers as definition has been included into the APSC questionnaire.

Total	38,484	30,966	69,450

3.4 Gender Parity in Enrolment

A standard measure of gender inequality in enrolment is the Gender Parity Index (GPI). GPI in enrolment means the ratio between the girls and boys enrolment. In Bangladesh, primary-age girls are more likely to be enrolled than boys. In 2015, the gender parity index was 1.08 for the GER and 1.02 for the NER.

Figure 3.7: Gender Parity Index for GER and NER 2005 - 2015

Note: GPI for GER increased in 2015 due to age of students as reported by head teachers may be not accurate due to birth registration not yet fully covered.

3.5 Single Shift School

The purpose of single shift school is to increase the contact hours for teaching and learning and interaction between the teachers and the students. To increase the number of single shift schools and thus to raise the contact hours between teachers and students was one of the PSQSLs of PEDPII.

Table 3.33: Number of Single Shift Schools by Division and Types of schools 2015

Chapter

Four

Internal Efficiency

4. CHAPTER 4: INTERNAL EFFICIENCY

4.1 Introduction

Internal efficiency shows overall efficiency of education system in Bangladesh. It includes the best uses of resources and produces results in terms of children's continuation and completion of primary education cycle. The most efficient system would be one in which all children who enrolled and progressed through the cycle. In other words, there would be no repetition and no dropout because of efficient use of teachers, classrooms and other resources.

The indicators namely Repetition Rate, Dropout Rate, Coefficient of Efficiency, SurvivalRate, Years Input per Graduate and Average Student Absenteeism has been considered for measuring internal efficiency of primary education.

Primary education internal efficiency indicators in Bangladesh are important because they show whether the system is converting inputs (budgets) into outputs (graduate students) in an efficient manner. Internal efficiency is calculated using the reconstructed cohort approach.

Five

Teachers Information

5. CHAPTER 5 :TEACHERS INFORMATION

5.1 Introduction

Teachers are key persons to provide and ensure quality primary education in the classrooms. In this chapter, teachers' information has been presented in the following tables:

- ❖ Division and Gender wise numbers of Teachers.
- ❖ District and Gender wise numbers of Teachers.
- ❖ Student Teacher Ratio by type of schools and District.
- ❖ Year wise Pupil Teacher Ratio, 2005-2015.
- ❖ Division and Gender wise number of C-in-Ed trained Teachers.
- ❖ District and Gender wise number of C-in-Ed trained teachers.

Table 5.1: Division and Gender wise number of Teachers in GPS, NNPS and RNGPS 2015

Division	GPS				NNPS				RNGPS			
	Male	Female	Total	% of Female	Male	Female	Total	% of Female	Male	Female	Total	% of Female
Barisal	6,473	11,028	17,501	63	4,718	5,336	10,054	53	14	31	45	69
Chittagong	16,103	31,465	47,568	66	5,826	7,693	13,519	57	21	55	76	72
Dhaka	19,627	43,561	63,188	69	9,375	12,098	21,473	56	59	102	161	63
Khulna	8,750	16,681	25,431	66	7,581	6,716	14,297	47	11	29	40	72
Rajshahi	10,454	18,879	29,333	64	7,856	5,877	13,733	43	14	16	30	53
Rangpur	8,975	16,122	25,097	64	9,825	8,260	18,085	46	22	43	65	66
Sylhet	5,342	12,199	17,541	70	2,285	3,382	5,667	60	48	55	103	53
Total	75,724	149,935	225,659	66	47,466	49,362	96,828	51	189	331	520	64

Table 5.2: Division and Gender wise number of Teachers in NRNGPS and Experimental School 2015

Division	NRNGPS				Experimental School			
	Male	Female	Total	% Female	Male	Female	Total	% Female
Barisal	166	526	692	76	2	30	32	94
Chittagong	484	528	1,012	52	8	41	49	84
Dhaka	492	1,656	2,148	77	6	48	54	89
Khulna	135	326	461	71	2	35	37	95
Rajshahi	224	454	678	67	11	40	51	78
Rangpur	503	1,353	1,856	73	4	30	34	88
Sylhet	86	207	293	71	2	20	22	91
Total	2,090	5,050	7,140	70.7	35	244	279	77.5

Table 5.3:Division and Gender wise number of Teachers in Community Schools and Ebtedayee Madrashah 2015

Division	Community				Ebtedayee Madrashah			
	Male	Female	Total	% of Female	Male	Female	Total	% of Female
Barisal	17	45	62	73	1,019	218	1,237	18
Chittagong	8	22	30	73	1,840	404	2,244	18
Dhaka	30	93	123	76	2,119	624	2,743	23

5.2 Student -Teacher Ratio (STR)

Student-Teacher Ratio calculated based on working teachers and enrolled children in schools without considering double shifts in a staggered system. The PEDPII target was to achieve a STR of 46:1 in all schools by 2009 but it was 53:1 in 2011 and 36:1 in 2015 of all types of schools whereas in GPS and NNPS STR is still 42:1 and 44:1 in order that. Table 5.10 shows the district wise comparison of STR by types of schools and district. Table 5.11 and Figure 13 & 14 show the comparative scenario of STR during 2005-2015.

5.3 Educational Qualification of Teachers

APSC 2015 collects information on the educational qualification of primary school teachers. 317,100 teachers mentioned their educational qualification in APSC 2015. The following Table 5.9 presents the information on educational qualification of teachers.

Table 5.9: Teacher's educational qualification (GPS, NNPS and Experimental school) 2015

Educational Qualification	GPS, NNPS & Experimental School Teachers (%)		
	Male	Female	All
SSC	10.9	14.1	12.9
HSC	20.1	36.0	29.9
Graduates/Honors	40.5	30.1	34.1
Masters	26.9	18.1	21.5
Others	1.6	1.7	1.7

5.4 Professional Qualification of Teachers (C-in-Ed)

Primary schools teachers are supposed to have one-year “Certificate-in-Education (C-in-Ed)” training which prepares them in pedagogical discipline. For various reasons, a large number of teachers are working in schools without receiving this training. PEDP3 planned to provide this training for all the primary schools teachers. Table 5.9 and table 5.10 show the C-in-Ed Trained teachers by gender, divisions and types of schools (GPS, NNPS, RNGPS, NRNGPS, Experimental and Community schools) and Table 5.11 to Table 5.12 by gender, district and types of schools (GPS, NNPS, RNGPS, NRNGPS, Experimental and Community schools).

Chapter

Six

Annexes

6. CHAPTER 6: ANNEXES

Annex 1. List of KPIs

The KPIs are outcome and Impact levels indicators measuring the overall performance of the primary education sector. The 15 KPIs are as follows:

Key Performance Indicators	
1.	Percentage of Grade III students achieving Grade 3 competencies (All; Boys; Girls)
2.	Percentage of Grade V students achieving Grade V competencies (All; Boys; Girls)
3.	Grade 5 Primary Education Completion examination (PECE) pass rate (%)
4.	Percentage of children out of school (boys and girls)
5.	GER [EFA 5]
6.	NER [EFA 6]
7.	[Participation] Gender parity index of GER
8.	a. Net enrolment rate (NER)- Top 20% of households (HHs) by consumption quintile b. Difference between Top20% and bottom20% of Households by consumption quintile
9.	a. Upazila composite performance indicator - Bottom 20% of (used to derived annual improvement of b. Upazila composite performance indicator -Top 10% Upazila composite performance indicator - Bottom 10% c. Range between average value of index for top 10% and bottom 10% of Upazilas
10.	% of AOP budget allocation for unconditional block grants (SLIPs and UPEPs for schools and Upazilas
11.	Expenditure of unconditional block grants(UPEPs and SLIPs) by Schools and Upazilas
12.	Primary Cycle Completion rate ² (%)
13.	Primary Cycle Dropout rate (%)
14.	a. Coefficient of efficiency [EFA 14] b. Years input per graduate
15.	Percentage of schools (GPS/NNPS) that meet three out of four PSQL indicators: (i) Girls' toilets (PSQL 5); (ii) potable water (PSQL 7);and (iii) SCR (PSQL 11) (iv) STR (PSQL 16)

¹ KPI 9B is an EU only disbursement trigger, starting in 2010.

² KPI 9 and 12 is an EU only disbursement trigger, starting in 2010.

Annex 2: List of Non-KPIs

List of Non-Key Performance Indicators (Non-KPIs) - Measuring the Performance of Primary Education system at Outcomes and Impact Levels like as KPIs. The 12 Non-KPIs are as follows:

SL.	Non-KPIs
1.	PECE Participation rate of PE and EB (based on Descriptive Roll) (%)
2.	Repetition rate (EFA-12) (%)
3.	Percentage of Grade1 new intakes who completed PPE (EFA-2) (%)
4.	Student attendance rate (%)
5.	Number of children from NFE institutions taking Grade 5 PECE
6.	Survival Rate (EFA-13)
7.	Percentage of Single Shift School (%)
8.	Percentage of sanctioned posts filled in district (staff) and upazilas (teachers) (%) (Vacant post #/Filled
9.	Gross Completion Rate (%)
10.	Transition rate from Grade 5 to Grade 6 (%)
11.	Public education expenditure as percentage of GDP (EFA-7) (%)
12.	Public expenditure on primary education as % of total public expenditure on education (EFA-8)

Annex 3: List of DLIs

Disbursement Linked Indicators (DLIs): The 9 DLIs are sub-components that, once achieved, trigger the disbursement of funds from DPs to the Government. Whilst the DLIs identified at sub-component levels, their achievement is not contingent upon achieving targets set at the sub-component indicator level. Rather, the achievement of DLIs guided by tasks outlined in the DLI matrix. The nine DLIs are as follows:

Sub-Component No.	Primary School Quality Level indicators
1.4	Production and Distribution of Textbooks
1.6	Teacher Education And Professional Development
2.1.2	Pre-Primary Education
2.2.3	Needs-Based Infrastructure Development
3.1.2	Decentralised School Management And Governance
3.2.1	Grade 5 Primary Education Completion Examination Strengthened
3.2.2	Teacher Recruitment, Promotion and Deployment
3.2.3	Annual Primary School Census
4.4	Sector Finance

Annex 4: List of PSQLs

Primary School Quality Level indicators (PSQLs): PSQLs are used as a proxy to understand whether minimum standards being met across the education system, especially at the school level. Progress against the PSQLs informs the distribution of fixed tranche funding from the DP's. The 14 PSQLs are as follows:

SL.	PSQLs	Status in 2015	Target 2017
1.	Percentage of schools which received all new textbooks by January 31	99%	100%
2.	Percentage of (assistant and head) teachers with professional Qualification (C-in-Ed/ Dip-in-Ed, B.Ed., M.Ed.)	Male: 92.6%, Female: 84.9% and All: 88.7%	95%
3.	Percentage of (assistant and head) teachers who receive continuous professional development (subject based) training	Male: 79.1%, Female: 69.9% and All: 73.4%	95%
4.	Percentage of (assistant and head) teachers who receive continuous professional development (sub-cluster) training	Male: 90.0%, Female: 89.9% and All: 89.3%	95%
5.	Percentage of schools (GPS/NNPS) with pre-primary classes	GPS- 99.3% & NNPS- 94.9%	98%
6.	Number of enrolled children with disabilities	Male: 37,535, Female: 30,298 and All: 67,793	n/a
7.	Percentage of schools with at least one functioning toilet	87.9%	95%
8.	Percentage of schools with separate functioning toilets for girls	52.6%	95%
9.	Percentage of schools have safe water sources: functioning tube wells and other sources	73.2%	95%
10.	Percentage of schools that meet the SCR standard of 40	32.7%	25%
11.	Percentage of standard size classrooms (19'6"X17'4") and larger constructed	71.4%	55%
12.	Percentage of schools which receive SLIP grants	74%	98%
13.	Percentage of head teachers who received training on leadership	49%	85%
14.	Percentage of schools that meet the STR standard of 46 (EFA11)	66.7%	75%

Note: PSQLs revised during the MTR 2014 and fixed totalled 14 instead of 18 (main document of PEDP3)

Annex 5: List of Sub-Component Indicators

List of Sub-Component Indicators - Measuring the Overall Performance of Primary Education Sector

Running SL.	Sub-Com #	Sub-component Indicators
		Component 1: Teaching and Learning (In Component 1 total KPIs 3, Non-KPI 1 and PSQLs 4, Sub-Component Indicators-22)
	1.1	Shikhbe Protiti Shishu [Each Child Learns]
1	1.1.1	Number of schools participate in Each Child Learns (ECL)
2	1.1.2	Percentage of grade 3 ECL students achieving grade 3 competency in Bangla
3	1.1.3	Percentage of grade 3 ECL students achieving grade 3 competency in Math
4	1.1.4	Number of education personnel trained in ECL, including mentoring
5	1.1.5	Percentage of schools provided with graded supplementary reading materials
	1.2	School and Classroom Based Assessment
6	1.2.1	Number of schools pilot school-based assessment training
7	1.2.2	Percentage of head teachers & teachers received school-based assessment training
8	1.2.3	Percentage of education officials/AUEO received school-based assessment training
	1.3	Curriculum and Textbooks Strengthened
9	1.3.1	Number of subjects by grades where curriculum revision has been approved
10	1.3.2	Number of subjects by grades where new textbooks have been developed based on revised curriculum
11	1.3.3	Number of subjects by grades where new teacher guides/addition have been introduced based on revised curriculum
12	1.3.4	Percentage of teachers and officials participate in curriculum dissemination training
	1.4	Textbook Production and Distribution (DLI 1, PSQL 1)
13	1.4.1	Percentage of schools which received full set of (revised) teacher guides for all teachers
	1.5	ICT in Education
14	1.5.1	Number of GPS/NNPS which have received IT equipment
15	1.5.2	Number of GPS/NNPS with a least one functional computer
16	1.5.3	Number of all education personnel received ICT training by designation (e.g., teachers/head teachers, admin/supervisory staff etc.)
17	1.5.4	Annual AOP allocation and actual expenditures for implementation of ICT strategy
	1.6	Teacher Education and Development (DLI 2, PSQLs 2, 3 & 4)
18	1.6.1	Number & Percentage of new teachers each year receiving DPEd
19	1.6.2	Percentage of new teachers received induction training
20	1.6.3	Number of teachers participate in the training on Teacher Support and Networking
21	1.6.4	Percentage of PTIs deployed 16 instructors
22	1.6.5	Percentage of PTIs deployed 12 instructors or less
		Component 2: Participation and Disparities (In Component 2, KPIs 6, Non-KPI 6 and PSQLs 7)
	2.1.1.	Second chance and alternative education
23	2.1.1.1	Number of children access second chance education services
	2.1.2	Pre-primary education (DLI 3, PSQL5)
24	2.1.2.1	Number of children enrolled in formal GPS /NNPS PPE programs
25	2.1.2.2	Percentage of GPS providing PPE are assessed against minimum quality standards
	2.1.3	Mainstreaming inclusive education (PSQL6)
26	2.1.3.1	Number of children enrolled from tribal/indigenous communities
	2.1.4	Education in emergencies (EIE)
	2.1.4.1	Number of schools from flood/cyclone prone areas whose stakeholders received awareness raising

Running SL.	Sub-Com #	Sub-component Indicators
		materials
	2.1.4.2	Number of upazilas integrate EIE in UPEP planning
	2.1.4.3	Number of children in disaster struck areas accommodated in temporary schools
	2.1.5	Communications and social mobilization
	2.1.5.1	Public perception of primary education service quality
27	2.1.5.2	Percentage of physical implementation of the annual communication plan
	2.2.1	Targeted stipend
28	2.2.1.1	Number of Card holder
29	2.2.1.2	Number of beneficiaries
30	2.2.1.3	Number of beneficiaries in the reporting quarter/previous quarter
	2.2.2	School Health & School Feeding
31	2.2.2.1	Number of schools participate in school feeding program
32	2.2.2.2	No. of teachers receive training on school health program
33	2.2.2.3	Number of schools where health check-ups are conducted
	2.2.3	Needs based school environment (PSQLs, 7, 8 & 9)
34	2.2.3.1	Percentage of schools with wash blocks
35	2.2.3.2	Percentage of schools which have a tubewell with arsenic-free water
	2.2.4	Needs based infrastructure development (DLI 4, PSQLs, 10 & 11)
36	2.2.4.1	Percentage of classroom using for classroom teaching
		Component 3: Decentralization and Effectiveness (In the Component3 total 6 KPIs, 3 Non-KPIs and 3 PSQLs)
	3.1.1	Field level offices strengthened
37	3.1.1.1	Percentage of vacant posts filled at all field levels
	3.1.2	Decentralized school management and governance (DLI 5, PSQL12)
	3.1.2.1	Percentage of SMCs whose members were trained (at least 3 members)
38	3.1.2.2	Percentage of Upazilas which have prepared UPEP
	3.1.3	School level leadership development (PSQL 13)
	3.1.3.1	Percentage of head teachers who received training on community mobilization
	3.1.4	Organizational Review & Strengthening
39	3.1.4.1	Percentage of vacancies filled by institutions and positions including an updated organogram
40	3.1.4.2	Number of posts identified for post-PEDP3, including potential vacancies, transfers and creased from integration of discreet projects
	3.2.1	Grade V Primary Education Completion Examination (PECE) (DLI 6)
41	3.2.1.1	Percentage of test items that are competency based
	3.2.2	Teacher recruitment, promotion and deployment (DLI 7, PSQL 14)
42	3.2.2.1	Percentage of teacher vacancies filled
43	3.2.2.2	Percentage of head teacher vacancies filled
44	3.2.2.3	Number of pre-primary teachers recruited
	3.2.3	Annual Primary School Census (APSC) (DLI 8)
45	3.2.3.1	Timely completion of APSC report (within academic year)
46	3.2.3.2	Timely completion of APSC report (within academic year)
47	3.2.3.3	APSC data accuracy according to third party validation
	3.2.4	National Student Assessment (NSA)
48	3.2.4.1	Timely completion of NSA analysis and report
49	3.2.4.2	Number of professional staff in National Assessment Cell (NAC)
50	3.2.4.3	Number of academic supervisors (AUEO) working under NAC in the field
51	3.2.4.4	Number of PTI and URC instructors working under NAC in the field
52	3.2.4.5	Number of subject teachers working under NAC in the field

Running SL.	Sub-Com #	Sub-component Indicators
53	3.2.4.6	Number of actions identified and implemented based on NSA findings
		Component 4: Planning and Management (In Component 4, Non-KPIs 2)
	4.1	PEDP3 management and governance
54	4.1.1	Total number of PEDP3 management and steering committee meetings
55	4.1.2	Percentage of Annual Operational Plan implemented (by components and sub-components)
	4.1.3	Percentage of funds linked to DLI disbursed
	4.2	PEDP3 Financial Management
	4.2.1	Annual Operational Plan budget implementation
56	4.2.2	Percentage of annual implementation of PFM action plan
57	4.2.3	Number and percentage of unsettled audit observation resolved
	4.3	Sector finance (DLI 9)
58	4.3.1	Non-Development and Development share of MoPME Budget
59	4.3.2	Percentage execution of both Non-Development and Development budget of MoPME
60	4.3.3	Percentage of Development budget allocated to discrete projects
	4.4	Strengthen monitoring functions
61	4.4.1	Number of staff (central & local) receive orientation in RBM approach
62	4.4.2	Number of schools and offices inspected
63	4.4.3	Number of inspections undertaken with support of e-Monitoring tools
64	4.4.4	Number of progress review meetings organized and activities reviewed
	4.5	Human Resource Development
65	4.5.1	Number of officers received professional development training
66	4.5.2	Number of staff received professional development training
	4.6	Public Private Partnership
67	4.6.1	Number of partnership agreements/MoUs following PPP framework

Note: DPE has been using backward calculation approach i.e. excluding 10 years and including 5 years for computing 6-10 years ages population in each yearsince 2011 considering the single age populationof BBS 2011 population census data as a base population (from the 2011 population census 6-10 years used in 2011, 5-9 years in 2012and accordingly backwards calculation up to 2015).

Annex 9. Data Cleaning as Per Manual

Since 2005 DPE has been carrying out an annual census of the primary schools under its jurisdiction. The annual primary schools census is the main source of information on assessing progress in the implementation of government policies and programmes in primary education.

According to the Framework for Assessing the Quality of Education Statistics that was proposed by the World Bank and UNESCO Institute of Statistics in 2003, there are five quality dimensions of the way in which data are collected, processed, and disseminated: integrity, methodological soundness, accuracy and reliability, serviceability, and accessibility.

In order to increase the quality of its education statistics and meet internationally recognized good practice, DPE has recognized the need to standardize the way in which the data received by the schools is processed. As a first step in that direction, it was agreed that it was necessary to document and publicize the method used to clean the raw dataset. This was the purpose of this manual. For APSC 2015 this manual has been tried to be followed for the first time.

Cleaning APSC data is a labor intensive and lengthy process and one, moreover, that is only partially successful in correcting the errors in the data. The answer does not lie in data cleaning alone but in introducing proper validity checking to the data entry program and directly to the database tables and in securing the database to avoid the current widespread practice of typing data directly into the database tables.

The main data entry screen of the APSC data entry program provides a facility to check for missing data including:

1. Check for imbalance in enrolment for STD_ADMISSION and AGE_WISE_ADMISSION
2. STD_ADMISSION without matching TEACHER_POST
3. STD_ADMISSION without matching TEACHER_INFO
4. STD_ADMISSION without matching TOILET_WATER_DETAIL
5. STD_ADMISSION without matching ROOM
6. STD_ADMISSION without matching BOOK
7. STD_ADMISSION without matching SLIP
8. STD_ADMISSION without matching STD_ATTEMPT

It is the responsibility of the data entry operator at the UEO to do these checks with AUEOs and UEOs signing off on the process. The set procedure requires each AUEO to check the manually completed formats sent in from the Head Teachers of his/her respective cluster. After verifying the data, the AUEO gives it to the Upazila Resource Centre (URC) data entry operator or the computer operator (LDA cum Computer Operator) at the UEO for electronic data entry. It is the duty of the AUEO to continue checking errors on-screen during the data entry process at the URC. After completing data entry, the Data Entry Operator/LDA cum Computer Operator sends the data to the UEO. The UEO has responsibility to check 20% of the data on a sample basis. If he/she is satisfied with the quality of the data, it is sent onto the DPEO. The Assistant Monitoring Officer (AMO) of the DPEO also has a responsibility to check 20% of the data and to compile the data from all Upazila into one folder and send to IMD by CD / pen drive / email. The task of IMD should then be merely that of aggregating the countrywide data.

However, despite all these checks and balances, there are significant amounts of missing data in the APSC files sent from the field. Hence it is imperative to rerun the above checks plus the additional ones identified for each schools in the Upazila as soon as the data is received by IMD. If missing data is discovered in time, the UEO can be requested to collect the data once more from the schools or to instruct his/her staff to re-enter the data.

In compliance with the protocol of DLI No 8 Annual Primary Schools Census (APSC), this is a summary of the internal data validation process for APSC 2015. For APSC 2015, the Information Management Division (IMD) and the Monitoring and Evaluation Division (M&E) have jointly developed a mechanism for checking the data at source and the APSC data entry software itself includes a number of checks for missing and data. The steps below summarize the steps taken to clean schools data, following the newly adopted APSC Data Cleaning Manual;

Stage One: A rough check of data completeness and accuracy

Simple queries are run against the data which identify data combinations which are simply not possible (i.e. schools where the numbers of children applying to sit for the terminal exam are less than the numbers who sat the exam or schools having no classrooms). Missing or duplicate schools are also identified. Duplicate data for schools is often caused by changes in Upazila (and even District and Division) boundaries. Where data errors at this level are identified, the data will be returned to UEOs with a request to resubmit.

Stage Two: Cleaning Static Schools Data

Information in the gen_info table which includes static schools data needs to be cleaned first because this is the central table of the database. All other tables link to gen_info through the unique schools identifier [SCH_CODE]. Most of the problem encountered in this data are the result of incomplete data which can be rectified by making basic assumptions based on existing patterns in the data (i.e. the distance from the UEO can be estimated based on the union in which the schools is located and the accessibility can be guess based on the proximity to the sadar Upazila). For a list of rules to follow, check the APSC Data Cleaning Manual 2015. One issue of significance is that of schools that close down. Where dynamic data (e.g. student enrolment) is not provided for schools listed in gen_info it may be necessary to check with the UEO if the school continues to function.

Stage Three: Cleaning Student Data

During this stage, IMD assigned officials has cross-check data in the STD_ADMISSION and AGE_WISE_ADMISSION tables. Ideally, the data in these two tables should be consistent. Where it is not, it may be necessary to: 1) populate the AGE_WISE_ADMISSION table from data in the STD_ADMISSION table based on age distribution norms established in previous years or; 2) populate the STD_ADMISSION table from data collected in previous years using regression equations generated from an analysis of growth trends over the previous three years of data collection. The same measures should be taken where there are high level of internal inconsistency in the data (e.g. where the enrolment at any grade level is more than three times higher than that in the grade level immediately below it). Further details and base data to support both options are given in The APSC Data Cleaning Manual.

Data for disabled students is cross-checked against district level data for the incidence of each type of disability established by the most recent BBS HIES census. Where there is significant variation, the UEO will be requested to resubmit the data.

Examination results and repeater data are checked to see if they are in similar proportion to that in previous years. Where there is a significant discrepancy the UEO will be requested to resubmit.

Catchment area analysis data is checked against the data in the AGE_WISE_ADMISSION table. Where there is a significant discrepancy the UEO will be requested to resubmit.

Stage Four: Cleaning Teacher Data

There is often some confusion between teacher posts and actual teacher employment. Hence the first step in cleaning the TEACHER_INFO table is to delete all records where the name of the teacher is blank or is given as "vacant post" or some variant thereof. After this, teacher numbers and designations can be compared with the teacher posts allocated to the schools and recorded in the TEACHER_POST table. Other than this, the data cleaning process involves checking whether there are values recorded in fields which are outside the allowable range.

Stage Five: Cleaning facilities data

There are two tables that fall into this category. TOILET_WATER_DETAIL and ROOM. As the former table includes both raw data and summary data in the same records, there can be inconsistencies in figures and these should be checked for. Details of common errors are given in the APSC Data Cleaning Manual 2015.

It is important to have accurate details about the number and size of classrooms at schools since the number of classrooms that meet the standard is a PSQL. Since facilities data is relatively static, it is possible to import the previous year's data where no data has been provided from the schools. It is not possible for any schools not to have at least a single classroom. Hence the first step is to identify schools that have provided no or incomplete room data by making a query to identify any schools without classrooms. For each of these schools, classroom data can be imported from the previous year's data.

Stage Six: Cleaning Textbook Distribution Data

Data related to the annual distribution and receipt of textbooks is stored in the BOOK table. Normally all textbooks are delivered together so data entry staff tend to record the date of delivery for the first textbook in the list only. This is the Bangla text for class 1. The date recorded for this textbook can be assumed to be the date of delivery of all texts. More accurate data is available in the Textbook Distribution Database and work is currently being done to make records in this database compatible with records in the APSC database.

Stage Seven: Cleaning SMC Data

Data related to the Schools Management Committee (SMC) is stored in the SCHOOLS_MANAGEMENT table. There are no related tables in the database so this data can only be checked for internal consistency. Details are given in the APSC Data Cleaning Manual 2015.

The mechanism, procedures and internal organizational arrangements for APSC data cleaning have taken a major stride forward in 2015. In order to continuously improving the data quality of APSC, the data cleaning procedures will be under ongoing review and refinement. Data quality control measures put in place at Upazila and District level are comprehensive and well designed but there is a low level of conformity to these guidelines. In the future, more responsibility will be placed on AUEO/ UEO on the data quality control. Data entry operators / LDA cum Computer Operators at Upazila level need to be made to feel more accountable for the quality of the data entry process by being involved in the data checking and cleaning process through their UEO.

Annex 10. Internal Validation System in the Existing APSC Software

The internal validation mechanism has in-built in the present software of APSC. These are as follows:

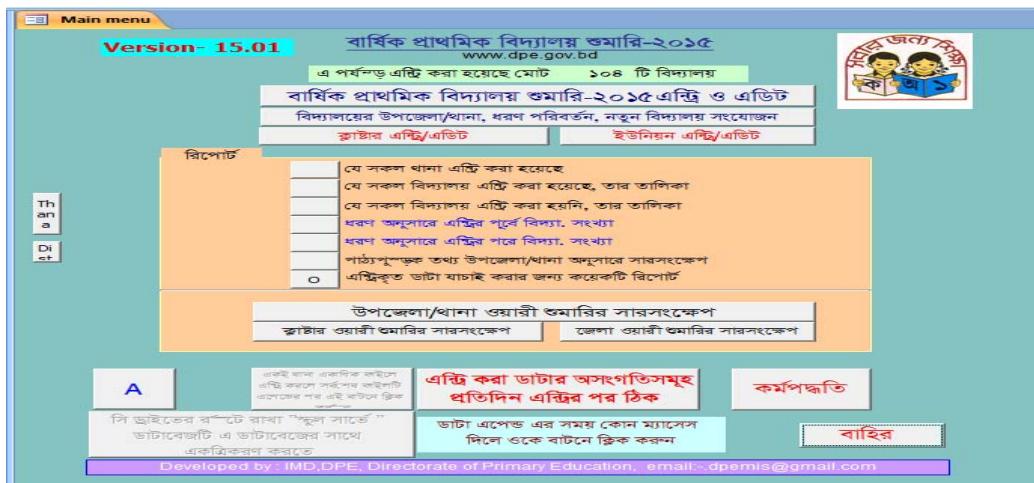

1. There is a validation system to compare two tables of std_admission and age_wise_admission to check total enrolment and age wise enrolment of a specific schools;
2. There is a validation system to check the not entered data (blank entry) in the field of approved teacher number of a schools;
3. There is a validation system to check the not entered data (blank entry) in the fields of room information of a schools;
4. There is a validation system to check the not entered data (blank entry) in the field of toilet and water information;
5. There is a validation system to check the not entered data (blank entry) in the field of SLIP information of a schools;
6. There is a validation system to check the not entered data (blank entry) in the field of ICT information of a schools;
7. Existing Validation check system for
 - Grade I student is much higher than Grade II;
 - Grade II student is much higher than Grade III;
 - Class V appeared is much higher than 2013 class V;
 - Working teachers are higher than approved post;
 - Repeaters are higher than the admission.

Also have some validation on the following field:

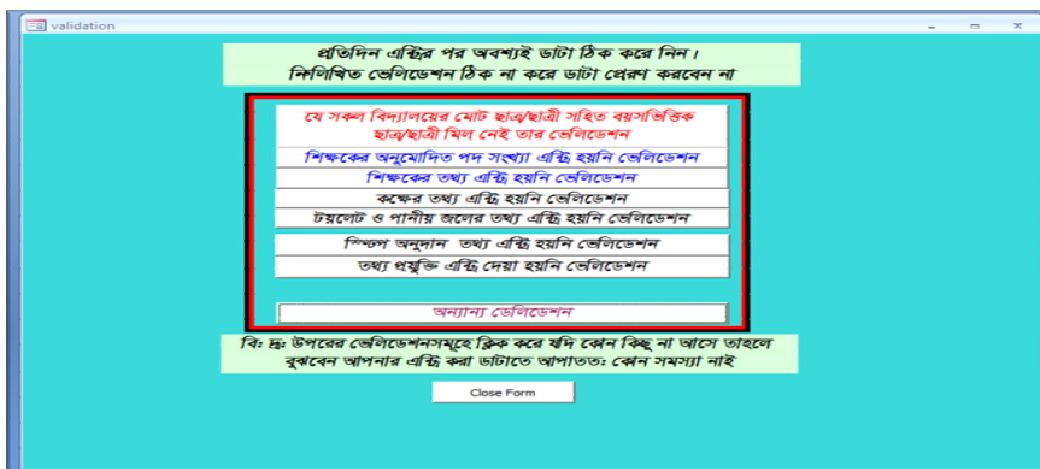

- Upazila enrolment;
- Upazila working teacher;
- Single shift schools.

In support of these validation system existance, some screen print are given in the following pages:

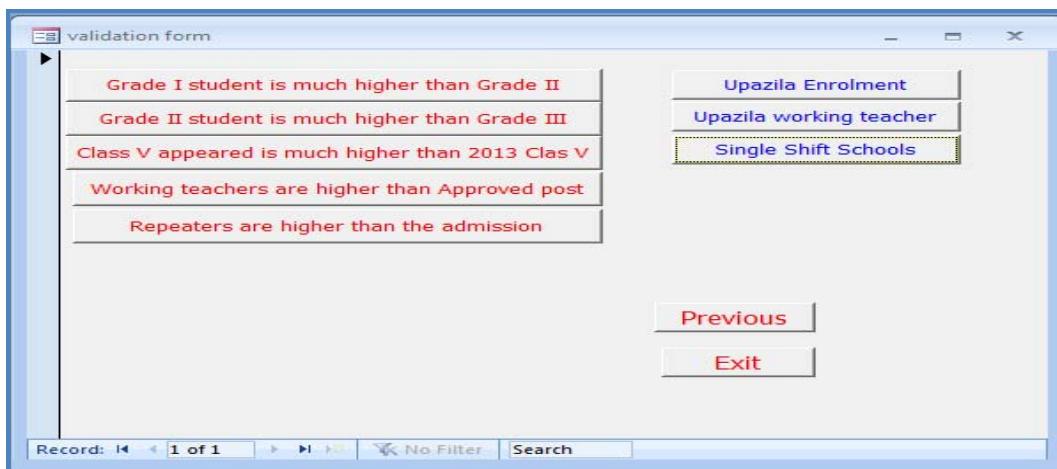

1st screen print of opening page of the software

2nd screen print of the first validation page of the software

In the above screen, there are seven buttons to check the above-mentioned validations.
3rd screen print of the second validation page of the software

In the above screen, there are eight buttons to check the above-mentioned validations.

Annex 12: Contact Hours in DPE Managed Primary Schools

The MTR of PEDP3 decided to increase contact hours during PEDP3 and include non-KPI7, which is '**proportion of GPS and NNPS operates on a single shift**', to measure the increase in the teaching learning interaction time in the classroom. The Annual primary school census does not collect directly relevant information for calculating contact hours from the schools through APSC. Directorate of primary education (DPE) has published academic calendar/Schedule for Primary schools operation and classroom teaching time including all types of government holidays and weekend every year. Based on this academic calendar the following information is very much identical for calculating the contact hours of DPE managed primary schools.

- In 2015 academic year a total of 125 days are holidays and 240 days are working days for DPE managed primary schools.
- A total of working Thursday is 41 excluding 11 holidays of Thursday.

Table 6.1: Number of Days School is Open 2015

Month	Working Days	Weekend	Holidays	No of Thursday	Remarks
1. January	24	5	2	4	A total of 30 (24 days for exam, 4 days for Sub-cluster and 2 days reserved leave by HTs) days should not conduct classroom teaching. Only 210 days for classroom teaching
2. February	20	4	4	4	
3. March	24	4	3	2 (H2)	
4. April	23	4	3	5 (Exam2)	
5. May	19	5	7	4	
6. June	15	4	11	3(H1)	
7. July	6	5	20	1 (4H)	
8. August	26	4	1	4 (1 Exam)	
9. September	20	4	6	3 (1H)	
10. October	17	5	9	3 (2H)	
11. November	25	4	1	4 (1 Exam)	
12. December	21	4	6	4(1H, Exam2)	
Total:	240	52	73	41 (H 11)	

School Timing

➤ **Timing for double shift school:**

- in grade I and II is 9.30 - 12.00 P. M. (**150 minutes daily**);
- grade III to V is 12.15 - 4.15 including 30 minutes interval for lunch (**210 minutes daily**) and;
- Timing for Thursday is 12.15-2.30 P.M. (**135 minutes daily**).

➤ **Timing for single shift school:**

- In grade I and II is 9.30-1.30 P. M. (**240 minutes daily**);
- Timing for Thursday is 9.30-12.30 P. M. (**180 minutes daily**);
- In Grade III, IV and V is 9.30 - 4.15 P. M. including 30 minutes interval for lunch (**315 minutes daily**)and;
- Timing for Thursday is 9.30-2.30 P. M. including 30 minutes interval for lunch (**270 minutes daily**)

Based on the above information, the contact hour has been estimated as follows:

Table 6.2: Contact Hours 2015

Grade	Contact Hours for Classroom Teaching			
	Double Shift School		Single shift school	
I and II	150m X 240 days	600 hours	240m X 199 days 180mX41 days	920 Hours
III, IV and V	210X199 days 135mX41 days	810 Hours	315X199 days 270mX41 days	1230 Hours

Note: Contact hours of single shift schools for grade-1 and 2 is 50% and grade 3 to 5 is 88% more than the double shift schools as DPE is interested to increase the single shift schools. In the above calculation restricted leave and Exam schedule date should not consider.
